

Most Effective and Innovative Presentation Tool

Digital Class™

The Most User-friendly Technology
- Learn to use in only 5 mins

Say Goodbye to Traditional Whiteboard Problems

No more wiping off the whiteboard!

No more dried whiteboard pens and messy residue!

No more turning your back on your audience!

**Write and recall notes on pre-drawn templates or
on any computer application!**

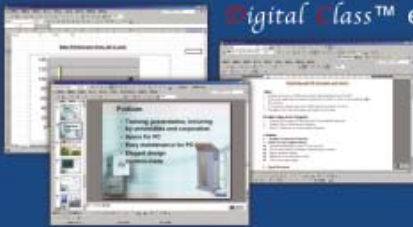

Podium Style

Interactive Electromagnetic
LCD Writing Tablet

Desktop Style

1. Writes on All Applications

Digital Class™ enables you to write on all computer applications, such as lecture programs, web pages or any other MS Office Applications (PowerPoint, Word, Excel), etc.

2. Record, Download and Distribute at Anytime

All the details of the presentation are recorded in "motion capture" together with the presenter's voice for playback at any time. The volume of the recorded file is so small (10-12MB at the rate of 20 pages per hour) that it can be easily downloaded and distributed in a digital format. Export annotated pages in BMP & JPEG formats.

3. Smooth and Fine Writing Display

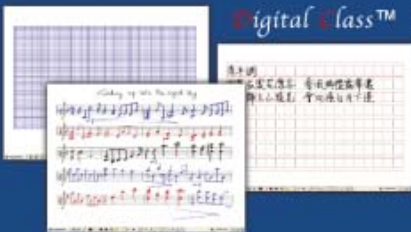

With perfectly smooth and clean pen-strokes, **Digital Class™** insures a better quality script than what is possible on a traditional whiteboard. The Line Rendering technology enables you to truly, completely and immediately display your penmanship.

4. Easy & Instinctive Interface

Retrieve any files you want, just as you do when using your computer. Use the electromagnetic pen as the mouse of a PC, and write notes as naturally as you would on a piece of paper. This system is easy to use - within 5 minutes you're ready to go!

5. One Click into Different Templates

Digital Class™ has various backgrounds which customize the look of your presentation, such as blackboard, whiteboard, manuscript paper, music sheet, English notebook, or your own designed templates.

6. A Big Screen that's Within Reach

Just touch the tablet to highlight the points you want to explain and images can be projected onto any available size of screen. You can face your audience at all times, and now you can do it without being blinded by a projector beam and without your shadow being cast on the screen!

7. Specifications of Digital Class™

System Requirements	
Operation System	Windows 98SE, Windows Me, Windows NT4.0 SP4, Windows 2000, Windows XP
CPU	Pentium III 500MHz or above. Recommend Pentium IV 1.8GHz
